OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

REDCLIFF, ALBERTA, THURSDAY, DEC. 4, 1919.

2 CANDIDATES IN THE FIELD FOR MAYOR

B. J. Bott and G. G. Patterson
now in the Contest—Coun-
cillors and School Trustees Al-
lanced by Accusation.

Last Monday was nomination day for mayor, councillors and school trustees, and the contest was a close one. The election was held in the morning at the school house. The results of the election were as follows:

FOR MAYOR
R. J. Bott, nominated by A. J. Learmonth and D. McLachlan.
G. G. Patterson, nominated by C. V. Gibson and A. N. Collard.

FOR COUNCILLORS
A. J. Learmonth, nominated by B. J. Bott and D. McLachlan.
G. G. Patterson, nominated by C. V. Gibson and A. N. Collard.
Ed. L. Storr, nominated by C. V. Gibson and A. N. Collard.
F. Odlin, nominated by W. Keats and D. McLachlan.

FOR TRUSTEES
A. N. Collard, nominated by C. V. Gibson and W. Keats.
F. Odlin, nominated by D. McLachlan and W. Keats.
E. P. Argue, nominated by T. N. Collard and C. V. Gibson.
J. L. Storr, nominated by C. V. Gibson and A. N. Collard.

Within the prescribed time E. L. Storr retired from the school board. As three members were to be elected in each case the remaining members of the three committees and trustees remaining were declared elected by acclamation.

The situation at present is that there will be an election for mayor only, and that the candidates are B. J. Bott and G. G. Patterson.

Already friends of both candidates are busy on the canvass and both are full of victory.

The election will be held in Crow's hall next Monday, December 8th, between the hours of p. m. All who own property in town and have their taxes paid up till the end of 1918 are entitled to vote in this election.

Study of Plants And Seeds in Schools

In schools where botany of allied subjects are studied it is usually the custom to study "wild" plants. Such plants possess striking flowers with clearly defined parts and are well suited to a botanical examination. Plants like the cat's paw, the elder hand, are seldom studied either from a botanical or biological standpoint. One of the purposes of the new pamphlet "A Guide in the Study and Improvement of Plants and Seeds" prepared by the Canadian Seed Growers' Association, is to obtain free from application to the publication branch, Department of Agriculture, Ottawa, to encourage a greater interest in this important plant. The fact that different plants taken from a field differ very considerably in practical value and may mark the starting point of new and superior races of "varieties," provides an attractive opportunity to engage in most interesting and promising line of investigation. Such a study in rural schools, moreover, should help to arouse an interest in farming and in farm life by demonstrating, among other things, that more profitable crops can be obtained right at our doors.

Have Confidence in Canadian Wheat Board

The United Grain Growers Limited have gone on record expressing confidence in the ability of the Canadian Wheat Board to get the highest market for the year's crop. Following the action of the Saskatchewan Grain Growers' union the government has made the policy of a government board handling the grain of the country permanent. This move is accepted as evidence that the farmers prefer to keep the board method instead of the open market of the Grain Exchange, if they have the power.

Masonic Lodge Elects New Officers

At the regular meeting of the above lodge on last Tuesday evening the following officers were elected for ensuing year:
W. M.—E. L. Stone.
S. W.—R. S. Hodge.
J. W.—A. N. Collard.
Treas.—R. H. Butler.
Sec.—H. W. Harper.
Tyler—F. Odlin.
The installation of these officers will take place on Tuesday, December 8th, when D. G. M. J. Elliott will officiate.

Presbyterian Ladies To Hold a Sale

The ladies of the Presbyterian Aid Society will hold their Christmas sale on the afternoon of Tuesday, the 16th of December, beginning at 2 o'clock. There will be on sale fancy articles, plain sewing and home-made goods, etc. The proceeds of the sale will be used for the purchase of a stove for the poor.

Coal Situation Growing Serious

A news report from Ottawa says that the coal situation shows no sign of improvement in Canada. Usually some settlement is effected of the troubles in the United States within a very short time, the conditions here will become serious. While arrangements have been made whereby some coal will be shipped from the United States to Canada daily, it is a very small amount as compared with the normal requirements of Canada. In November Canada usually imports from one to one and half million tons, and in December about one million tons, so that 150 cars a day, which we are getting at present, is very far from enough. The authorities here insist on the fact that very little attention has been paid either to the warnings they have issued or to the requests they have made for coal manufacturers and others as to their requirements.

The notes published by the Post controller dated these regarding the coal situation are as follows: "The coal situation is becoming more serious. The coal situation is becoming more serious. The coal situation is becoming more serious."

Gray Was Elected Mayor of Winnipeg

Winnipeg's 1920 city council will be practically an even division between labor members and anti-labor citizens. This is the result of the municipal elections.

Mayor C. F. Gray, who was a supporter of the labor party, was elected by a majority of 3,116, while the anti-labor party, led by J. H. McLean, was elected by a majority of 2,800.

An actual total of votes cast shows that the citizen candidate polled nearly 5,000 more votes than the labor candidate. This is very interesting in view of the fact that next year's fight may be waged with the ward system abolished.

U.S. to Protect The Coal Miners

The battleground of the conflict over a new wage scale in the bituminous coal industry which has centered at Washington during two weeks of debate, is now being fought in the courts. In all the sections of the country, the coal miners are striking. The government is trying to prevent violence by its military presence. The government is trying to prevent violence by its military presence. The government is trying to prevent violence by its military presence.

Premier Drury's statement is no longer \$12,000, that Drury's predecessor, Sir William Howard, was a voluntary act on the part of the O. G. miners. His annual income as prime minister has sustained a considerable reduction.

To the Ratepayers. of Redcliff

Having been requested by a number of the leading and respected citizens of the town to allow my name to go before the electors as a candidate for mayor in the forthcoming election, I have decided to do so, and am now in the field for the office. I believe that Redcliff's opportunity for development is now at hand and I am firmly convinced that the first thing necessary to put us in a position to take advantage of this opportunity is a wholehearted effort of pulling together on the part of every citizen of the town. During the past few years this has not been the case, and if elected, it will be my first endeavor to try to get all the different elements to follow with one common purpose in view, namely the progress and development of Redcliff.

I have always been greatly interested in the establishment of a ferry across the river south of the town in order that farmers on the south side of the river might have access to Redcliff and thus benefit the merchants of this town. I was appointed one of the members of a committee to look into this matter and did my share of the work to get the farmers concerned interested in this movement, and I have no doubt that if proper pressure were brought to bear on the government by the town council this could be accomplished without hurting the town to any extent.

If elected I should exert every energy to develop good, wholesome, clean legitimate sport for our young people and the employees in the different industries and will advocate the betterment of housing conditions.

I fully realize that the town's financial condition at the present time is not so encouraging. I, therefore, do not promise, and I do not intend to make, any extravagant promises. I will try to do my best to improve the town's financial condition, and I will try to do my best to improve the town's financial condition.

GORDON G. PATTERSON.

Church Notices

CHURCH OF ENGLAND.
Second communion in afternoon, Sunday school at 11 a. m. Morning service at 10 a. m. Evening service at 7 p. m. The Junior W. A. will meet on Monday at 4:15 p. m.

PRESBYTERIAN CHURCH.
Rev. Wm. Stewart, D. D., pastor. Residence next door to the church. Morning service 11 o'clock; Subject of Sermon, "Religion." Evening service, 7 o'clock; Subject of Sermon, "Jesus Christ as an Example of How to Live."

Rev. David Hollinger, pastor.

CATHOLIC CHURCH.

Until further notice services will be held in Crow's hall on the fourth Sunday of each month.

Look out for Stolen Pay Checks

Ministerial military pay checks, the total value of which is in the neighborhood of \$5,000, were stolen from the office of Captain Nedelko, head of the Canadian Mounted Police, Calgary, on Tuesday. Up to a late hour on Tuesday no arrests had been made and none of the checks had been recovered.

The numbers of the stolen checks range from No. 46865 to 46869, and the general public are warned not to accept any checks within range of the above numbers. The denominations of the stolen checks range all the way from \$15 to \$150.

Receives of industrial plants in Detroit and in other cities of the state are concerned, and the authorities are looking for the whereabouts of the stolen checks. The stolen checks were found across southern Michigan last Saturday.

University to Help Amateur Theatricals

The University of Alberta is better known for its scholarship than for its private theatricals. To the production of a play every household may contribute something, from the manager to some single piece of stage furniture or "property" upon which, through its itself being, the success of the performance may depend. The only obstacle in the way of amateur theatricals is the difficulty of finding just the right kind of pieces of the right length and with the right number of players.

Through the Travelling Library Division, the Department of Extension of the University of Alberta endeavors to remove this difficulty. A number of the plays suitable for production by amateurs have been assembled and may be borrowed on the same conditions as the books from the Open Shelf, namely on payment of postage. In making application for these plays readers should state the kind of play wanted, serious comedy, light comedy or farce; the number and sexes of players and the length of play whether it is to be part or the whole of an evening's entertainment. Attention to these points will insure better results to a larger number.

This will furnish a good opportunity for schools and churches in the province to get help along these lines.

Riots in Kitchener Over Change of Name

Riotous scenes were enacted in Kitchener, Ont., when a mob of infuriated citizens roughly handled prominent men believed to have had something to do with the suggestion to have the name "Kitchener" changed back to "Berlin," as the town was called before the great war.

The finance committee's report to the city council, recommending that a by-law be submitted to the people on the question of changing the name to Berlin, was voted down. Alderman Bitter was compelled by the crowd to flee the Union Jack, and was then locked in the jail. W. D. Porter, M. P., was taken from the Kitchener Club and, refusing to flee, was taken to the jail and kept there for several days.

The mob then smashed up the News-Record printing office. It is reported that the business office of the News-Record was destroyed and some of the machines destroyed and some of the machines destroyed. It is reported that the business office of the News-Record was destroyed and some of the machines destroyed.

Can Get Samples of Early Ripening Beans

While beans have long been grown and appreciated in certain parts of Canada for table use both in the green state and in the form of the ripened seed, this crop has not been as extensively cultivated as would be desirable. One of the principal difficulties in the way of the more extended production of ripe beans is the sensitiveness of the plants to frost. Ordinary beans cannot be ripened in any district where the season is very short. There are, however, some sections of Canada where the ripening of beans is possible, and it is the intention of the Department of Agriculture to send out samples of early ripening beans for the use of the farmers in these sections.

With a view to extending the use of ripe beans for human food, the Department of Agriculture is distributing the winter, for the first time, samples of a productive and very early-ripening bean.

Any farmer desiring these samples should write to C. E. Saunders, Dominion Cereals, Ottawa.

EFFICIENCY IN WRITING.

In its report of the teachers convention, the Ontario Education Board has issued the following statement: "Among the many interesting features of the teachers' convention last week the writing of the pupils of the various schools was a feature of great interest. The pupils of the various schools were given the opportunity to show their work in writing, and the results were most satisfactory."

C. A. Nolan, a farmer, of Moscow, has been awarded \$5,000 damages because five tractors were not up to what was claimed. The damages were awarded because the tractors were not up to what was claimed. The damages were awarded because the tractors were not up to what was claimed.

The worst covering the year 1919, will show a marked increase over 1918. At the same time, the number of the tractors in the province has increased. The number of the tractors in the province has increased. The number of the tractors in the province has increased.

SOMETHING ABOUT EYE FOR EYE

"Eye for Eye" is a mighty drama transferred to the screen by the production company of Mrs. Naimova. A picture of the play, "L'Océanide," by the great Belgian dramatist, Kierkegaard, is shown in the picture. The picture is shown in the picture. The picture is shown in the picture.

Coal Situation in Ontario is Serious

Owing to persistent efforts at Washington, C. A. Marguth, controller for Canada, has made arrangements whereby 150 carloads of coal will be shipped to Canada daily, as out of this amount Henry A. Harving, provincial fuel administrator, has been asked to carry the public utilities and the hospitals of Ontario from day to day. On account of the shortage in Quebec, the amount of coal which will be shipped into Ontario each day will be shipped into Ontario each day.

With a view to extending the use of ripe beans for human food, the Department of Agriculture is distributing the winter, for the first time, samples of a productive and very early-ripening bean.

Any farmer desiring these samples should write to C. E. Saunders, Dominion Cereals, Ottawa.

Officials Resist From G.W.V.A. Executive

President E. C. Mackenzie, of the Alberta command, G. W. V. A., has resigned, effective Nov. 30. His reason is that the veterans in continuing to press for cash bonuses in the face of the finding of the special parliamentary committee will serve to wreck changed they have for further re-establishment aid in the way of loans at low interest rates for those who wish to purchase homes or engage in business.

A. B. Clow, of Medicine Hat, formerly of Redcliff, a member of the provincial committee, has been elected to a vital situation for the province's convention, opening Dec. 9, to deal with the situation.

THURSDAY, DEC. 4, 1919.

MUNICIPAL ELECTION.

Next Monday the ratepayers of Redcliff will be asked to make their choice between Messrs. B. J. Bott and G. G. Patterson for mayor of the town for the next two years.

Mr. Bott has been mayor for the past six years and the ratepayers are familiar with what has been accomplished during that time. Consequently they should be able to judge whether he is entitled to re-election or not.

Mr. Patterson, although a young man, is an old resident of the town, and because of his business connections is well known to the citizens of the town. He has been a member of the School Board for the past five years and during the past year has acted as chairman of the board. He has been successful in his own business and is a highly respected citizen of the town.

The Review believes that the ratepayers of the town are sufficiently well acquainted with the records of the two men to make their choice intelligently without any suggestions from us. The only advice we would give at this time is that the ratepayers turn out next Monday and vote as their consciences dictate.

A LESSON.

When the province of Alberta extended the franchise to women there was great rejoicing, and this rejoicing was most noticeable amongst the women themselves. At the time they appeared to appreciate the fact that they were, so far as voting was concerned, placed on an equal with the men, and would in future have a say in the government of the country, in municipal, provincial, and federal affairs. It now transpires, however, that women as a whole are not taking the interest in public affairs that they should. According to reports from different centres where municipal elections are being held next week scores of women will not be able to take advantage of the franchise extended to them simply because they have not taken advantage of the machinery placed at their disposal in order that they should get the vote. In this connection Redcliff is no exception and as a result many women who, to all outward appearance, are interested in the town's welfare, will not have to vote.

There are certain rules which must be complied with before women can get their names on the voters' list, just as is the case with men and there is a certain time set aside for carrying out these rules. The time to look into these regulations is not at the eleventh hour or on election day, consequently if all the women want to take advantage of the privileges extended to them they should do their end of the work at the proper time. Conditions today should serve as a lesson for the future.

FARMERS RULE ONTARIO.

Ernest Charles Drury, Ontario's new premier, headed the United Farmers' party at the recent election. The farmers as political leaders and community spokesmen present a novel development to Canadians, most of whom, however, welcome the advent of the agriculturist to the arena of conspicuous public service. Hitherto the soil-tiller has been the backbone of the nation but has been content to raise bumper crops and grow rich in comparative obscurity. Today he has launched a movement that promises to win universal allegiance—a movement to clean up politics, inaugurate efficiency among office holders, wipe out partisanship, and get results for the taxpayer from public expenditures.

The Ontario farmers have formed a coalition with the laborites, and Premier Drury's cabinet is a body of men selected for practical knowledge of their departments. Canada, like the United States and the British Isles, used to be governed by a professional class in which the lawyer predominated. Lawyers were in charge of mines and forests and lands—education, and frequently the minister in charge knew little about his business and seemingly cared less. Now, however, the provincial cabinet is a selection of experts, each of whom by experience and training is well fitted for his post.

The United Farmers' platform is clear-cut and business-like. Its keynote is reform. It starts with the enforcement of economy in the public outlay which means profit for the taxpayer. It will abolish party patronage, that poison growth of Dominion and all other politics; will equalize educational opportunities; organize up-to-date road construction and forestry conservation; adopt the proportional representative system in elections and enforce and support prohibition.

Premier Drury, who hails from Barrie—birthplace also of Alberta's premier, Hon. Charles Stewart—lives 250 acres at Crown Hill, near his native town. He is not only a practical farmer, but he is a graduate of Guelph Agricultural College, the greatest school of its kind in America. Premier Drury is starting out well by cutting down his own salary and although at first some looked upon the election of a farmer government as an ill omen for Ontario, most people are now considering it as one of the most progressive steps the old province has ever taken.

The local G. W. V. A. is setting a pace to encourage punctuality that might well be followed by other organizations in the town. It is only natural that such a movement should be started by those of military experience and training, as punctuality, system, and thoroughness occupy a large place in that training and experience. We should all give the G. W. V. A. every assistance and encouragement in their endeavor to make Redcliff a town whose people are always "on time."

In the municipal elections next Monday there will be a hot contest for the mayoralty in both Medicine Hat and Redcliff. The candidates in the field in both cases are claiming they will be elected easily but as old politicians say there is nothing so uncertain as elections. None are so sure of election however, that they are letting up on the canvass. The results in both

cases will be watched with interest.

Jenner District.

Is After Irrigation

A new irrigation project, which will bring water to 270,000 acres in the vicinity of Jenner, south of the Red Deer, has been presented to P. J. Peters, commissioner of irrigation to the Dominion government, and Mr. Peters, after hearing a delegation on the subject, has promised to recommend to the government the formation of a survey party in the field immediately to ascertain the feasibility of the project.

The project was outlined to Mr. Peters by a delegation including Harold Keay, of Jenner; Capt. C. S. Pind, member for Redcliff, and J. A. McCall, member for Acadia. There are three sources of water supply for the new project, namely the R. Deer river, a continuation of the C. P. R. project east of Calgary, and the North Saskatchewan river. The farmers who are promoting the project prefer the independent source from the Red Deer, if this should be feasible. The farmers are anxious to organize an irrigation district under the irrigation act, and will proceed to do this as soon as the surveys have been completed and the project shown to be feasible.

Cabinet Considering

Aid to Soldiers

The disposition of the \$40,000,000 voted at the last session of parliament for soldiers' aid is now being considered by the cabinet, and an official statement with regard to it is expected before the end of next week.

It is understood that the recommended aid in the report of the parliamentary committee are being taken up separately and that the one providing for the payment of transportation to soldiers' dependents who returned from England to Canada prior to the armistice, has been passed. The recommended aid with regard to the payment of gratuity to men who served in the imperial army involves a great deal of investigation which is being undertaken by the militia department.

University Offers

Course in Pharmacy

The University of Alberta has the unique distinction of being the only university in the British Empire which gives a complete graduation course in four years in Pharmacy. At present out of a total of forty-one students enrolled in the Department of Pharmacy, fourteen are taking a full four-year course, leading to the degree of B. Sc. in Pharmacy. In this course special emphasis is placed upon chemistry in its various industrial and economic applications, and consequently, graduates are likely to be in demand for work in industrial chemistry and in manufacturing chemistry and pharmacy.

LADY ASTOR TAKES

SEAT IN COMMONS.
Lady Astor took the oath as member of the house of commons. There was a great outburst of applause while she was approaching the speaker, and again when she signed the roll. Her sponsors were David Lloyd George, the premier, and A. J. Balfour, lord president of the council. Lady Astor wore a black dress and hat.

FARM BOOKKEEPER.

There is a steadily growing demand among farmers for a simple practical system of keeping farm accounts. To meet this need on the part of men who seek the course of instruction, the United University of Canada has published a booklet entitled "Farm Accounts" which contains a carefully organized scheme of farm accounting under two divisions, one of which gives a very simple method of arriving at the simple position of the farmer as a result of each year's operation. The second division gives in a brief form a system of cost accounting as applied to the farmer. The Department of Extension of the University of Alberta has available a number of copies of this booklet which will be sent free of charge to anyone in Alberta on application.

NOTICE OF SALE.

The personal effects and belongings of the late William Cross of Redcliff, Alberta, consisting of a valuable mare and colt, buggy, harness, cutter, etc., and household furniture, consisting of a dining room suite, sideboard, sofa, tables, chairs, stoves, beds, etc., will be offered for sale in Redcliff by public auction on Saturday, the 25th day of December, 1919.

ITEMS OF LOCAL INTEREST

Do your Xmas shopping early as Mundell's.

Mrs. Creaser, of Medicine Hat, spent last week of in town, the guest of Mrs. W. J. Fairbairn.

The two McKellar boys left for the east last Monday. They will spend the winter with friends.

D. L. McKensie, superintendent of the Atlas Lumber Company, was in town last week on business in connection with the lumber business.

All the stores in town are now putting on their Christmas attire and judging from the displays the Xmas shopping will be made easy for the people of this town and district.

The White Bells orchestra have bills out, announcing a dance in the hall on Friday evening, December 19. Lunch will be provided and a good time is assured. Tickets \$1.00 per couple.

Mr. and Mrs. David Kerr wish to extend their thanks to the friends for the many acts of sympathy shown them during their recent bereavement. They also wish to thank the friends who sent flowers.

In our last issue we announced that our old townman, James Kerr, had been blessed with a young son. We regret to say that this was a mistake. The fortunate dad was R. S. Merry of this city.

W. A. Harburt, who has recently returned from overseas, arrived in town last Monday to visit his parents who reside here. Mr. Harburt enlisted from Regina. He had his right limb badly wounded and has to return to the hospital for further treatment.

At the evening service at the Presbyterian church last Sunday the congregation decided to start the evening service in future at seven o'clock instead of 7:10. Commencing next Sunday evening the services will be called at that hour.

Word was received last Saturday that Mrs. Moran, who underwent a serious operation in Calgary, was in a serious condition. Her parents, Mr. and Mrs. P. Laville, left at once for Calgary and are still there. Latest reports were to the effect that Mrs. Moran's condition was critical.

The sale of work and dance given by the Ladies' Auxiliary of St. Andrew's church on the occasion of the anniversary, last Tuesday evening, was a great success. A large number of customers attended the sale of work during the afternoon and the several booths were well patronized. A good crowd attended the dance in the evening and thoroughly enjoyed the event.

A very bad death occurred here last Sunday morning when George William, the infant son of Mr. and Mrs. David Kerr passed away after a few weeks illness. The child was fifteen months old and while touching his system was completely run down so that he was not able to withstand the additional strain when convulsions followed. The funeral took place on Tuesday afternoon. Services at the house and the grave were conducted by Rev. W. Shaver, D. D. Mr. and Mrs. Kerr have the sympathy of their friends in their sad bereavement.

H. W. Ireland, of Medicine Hat, who has just returned from overseas, spent last Saturday in town visiting his sister, Mrs. J. Rutherford.

Mr. and Mrs. R. L. Stone, of Calgary, are spending a few days in town this week, the guests of Mr. and Mrs. R. L. Stone.

The Civic Improvement League meets with Mrs. W. J. Fairbairn next Wednesday afternoon from 2:30 to 5 o'clock. A full attendance is desired.

GAS PRESSURE IN CALGARY GOING DOWN.

Calgary's gas pressure has reached almost the vanishing point, according to the records of the city laboratory registering instrument which, at 9 a. m. Tuesday morning, showed only 2.5 inches, which, translated into ounces of pressure to the square inch, the normal pressure per square inch is between 5 1/2 and 6 1/2 ounces.

to curtail consumption are in contemplation. It was said that among

other steps an order prohibiting the manufacture of coke has been prepared.
